

Why should I vote in the Primary Election on May 21st?

Reason #1:

School Board Candidates cross-file with both major political parties. Therefore, the Primary Election on Tuesday, May 21st will likely determine who will represent you for the next four years. Top vote getters in the Primary will have locked out their positions in the General Election, leaving you with no choice in November.

Reason #2:

Last Tuesday, May 14th, there was a candidates night held in Emmaus so that voters could have the chance to meet all candidates. There were only THREE candidates who attended the event to meet and greet the public. (Mercado-Arroyo, Donatelli, and Rhoads)

One can only assume that candidates Earnshaw, Heid, Moxley and Munson did not think it was important to listen to parents, teachers, and taxpayers. If they **don't have the decency to make themselves available for a public debate**, what makes us think that they will listen to us when we have concerns about our childrens' education and safety?

If incumbent board members and newbies are running together on one slate (which includes a candidate who withdrew months ago), will not present themselves to the public for questions, how accessible do you think they will be once they are elected?

The choice is yours...

Board members who will make themselves available to you, or business as usual... 

It's time for a change...

The days of unresponsive School Board members and business as usual by the administration towards parents, teachers, and taxpayers **MUST END!**

**That is why we are asking for your VOTE
on Tuesday, May 21st.**

Wanda Mercado-Arroyo

wanda@TeamEPSD.org / 610-966-7863

Chris Donatelli

chris@TeamEPSD.org / 484-707-8632

Garrett Rhoads

garrett@TeamEPSD.org / 610-462-4048

We will give you the change you demand by doing the following:

Change Board policy to allow for public comment on all agenda items and proposals **before** they are voted on.

Institute policy that requires School Board members to respond to citizen inquiries and concerns within 48 hours.

Making sure our tax dollars are spent in the classrooms, not on unnecessary administrative overhead and inefficient and antiquated buying practices.
